

The new Ascom i63 VoWiFi Mobility with confidence

In the know. All the time.

The new Ascom i63 VoWiFi handset keeps mobile workers connected to critical data, equipment, events and colleagues.

Trusted VoWiFi performance.

Leverage existing infrastructure and gain reliable performance and roaming.

Never be alone. Especially when you are alone.

The new Ascom i63 Protector keeps vulnerable workers safe.

The stylish yet robust enterprise-grade handset for reliable mobile communication and coordination

- **Mobility with confidence.** The Ascom i63 makes it easy to make mobile workflows more productive. Features such as outstanding voice quality, a multilingual user interface, messaging capabilities and extensive phone book options help keep users connected to colleagues, events and mission-critical information.
- **Reliable VoWiFi performance and seamless roaming.** Leverage your existing Wi-Fi infrastructure and gain the reliable VoWiFi performance and roaming capability offered by the Ascom i63.
- **Validated interoperability with major PBX and Wi-Fi vendors.** Ascom i63 mobility solutions are also vendor-independent. They enable a 'best-of-breed' approach—your organization is not restricted to handsets specified by PBX vendors.
- **Smooth device management.** Enterprise-grade centralized device management allows all settings to be managed remotely.
- **Easy to use.** Bluetooth-enabled headset allows handsfree operation. Large, easy-to-read screen and a light weight (only 135g / 4.8oz) help make the Ascom i63 comfortable to use for even the longest shifts.
- **Protects users and colleagues.** The Ascom i63 Protector* model features push-button, man-down and no-movement alarms. Multiple indoor and outdoor device location methods are available for both the Protector and Messenger variants.
